The School

Since 1994 Saipan International School has helped each child reach his or her full potential by providing a positive environment that fosters academic, emotional, and social growth. SIS maintains the highest academic standards, and challenges students to perform at the peak of their potential. Small class sizes, averaging 18 students, give teachers an opportunity to meet the needs of a diverse student population in a secular, nondiscriminatory environment. Our students originate from locations around the world, including the Pacific Islands, Asia, Australia, Europe, Africa, North America, and South America.

Saipan International School Profile 2021-22

The CAS Program

SIS recognizes the importance of developing all abilities within each student and has designed the CREATIVITY, ACTION, and SERVICE (CAS) Program to do just that. Students are provided opportunities to develop their abilities in each of these areas *outside* of class or work. The work may take a variety of forms, but it must be done individually for people from outside of the students' immediate family, and without monetary compensation. All students must complete a *minimum* of 100 hours of CAS projects during their high school years to satisfy the CAS graduation requirement and these hours must be recognized and approved by the school.
